LIFE QUICK REQUEST

HERE'S WHAT
YOU CAN
EXPECT ...

Other Requirements

Based on your medical history and the amount of insurance requested, we may need to request additional information from your doctor or an investigative consumer or motor vehicle report.

Once all the information is collected, an underwriter will evaluate your life insurance application to determine your underwriting classification.

Next, your agent or investment professional will contact you regarding your life insurance eligibility based upon your application. If your application is approved, your agent or investment professional will deliver your life insurance policy detailing your amount of coverage, duration of coverage and actual premiums calculated for your underwriting classification.

Please contact your life insurance agent or financial advisor with any questions about your life insurance policy.
